

MERIUM

PC - Home Entertainment

The Mesiro Merium is, technically speaking, a PC. However it is designed especially with the enjoyment of multimedia in mind. Connect to your flat screen TV, and enjoy entertaining media from the comfort of your sofa – just one click away.

The Mesiro Merium - Worldwide winner of Intel® Core™ Processor Challenge, a contest designed to spur industry innovation in new, stylish and high-performing PC designs

What truly makes the new Mesiro Merium a piece of art, is its unique Scandinavian design and the fact that you can change its appearance to match the rest of your home. Just change the frontcovers – and you have a personalized piece of art.

Browse the Internet on your flat screen TV

Read the news, search for your next vacation, enjoy sites such as YouTube, Facebook, etc, all from the comfort of your sofa.

Watch web TV

Watch updated news programs and TV shows at your convenience from any of your standard broadcasters. Watch live sports events from national and International service providers; free, pay per view or subscription.

Watch movies on demand

Watch movies on-demand by streaming from national and International service providers; free, pay per view or subscription. No more going to the DVD store.

Enjoy all your music, photos and videos

Store and enjoy your digital music collection (mp3, iTunes etc). Store and enjoy your valuable digital photos on your flat screen TV, one-by-one or as slideshow. Watch DVD's.

Chat and play games online

Stay connected with your friends and family.

Multimedia remote and keyboard

We offer two different designs of wireless keyboard for easy use and navigation from the comfort of your sofa.

Small form factor

Makes your TV look bigger.

Place both vertically and horizontally

Place it the way that suits your home the best.

All standard PC functions

Enjoy all the standard PC functions on your Merium.

Personalize your Merium with interchangeable covers

Black and white covers are included in the retail box. Different designs can be bought separately. Or you can design your own.

Very silent (extremely low fan noise)

Place it in your living room without being disturbed.
